### Technology Specialisations

For more than 35 years, Eurand has been developing enhanced pharmaceutical products using its proprietary drug delivery platforms. By the use of its technologies, Eurand turns difficult drug candidates into easy-to-administer, successful pharmaceutical products. Three commercialised technology platforms are offered at Eurand:

- **Enhanced Bioavailability**

Eurand's novel **Biorise**<sup>®</sup> technology is validated and commercialised and can be applied to a wide range of compounds to enhance bioavailability and solubility.

- **Customised Release**

Eurand's customised release technology platform is broad, widely applicable to a range of molecules and proven. The Company has developed five technologies within this platform. Using its customised release technologies, Eurand has developed more than 50 products which are currently being marketed throughout the world.

- **Taste Masking/Orally Disintegrating Tablets**

Eurand is recognised as the world leader in taste masking drugs using its **Microcaps**<sup>®</sup> technology. Actives taste masked using this approach are able to be used in a variety of formulations including Eurand's premiere ODT technology, **AdvaTab**<sup>™</sup>.
